

MOBILE COMMUNICATIONS **SOLUTIONS**

Saving Clients 20-50% each year.

Our Services

TDS works with clients to develop and improve their wireless programs. We help increase efficiency, fulfill business needs and reduce costs by:

- ▼ Evaluating usage in all aspects of the wireless program, including text messaging, and voice, data and line usage.
- ▼ Recommending and implementing changes that will create savings and enhance program effectiveness.
- ▼ Providing one point of contact for all wireless needs, managing all client locations and serving as an extension of your company.

Our Promise

TDS maintains close relationships with our clients, handling virtually every aspect of their wireless programs, including upgrades, additional lines, accessory needs and customer service issues.

Our clients always receive prompt responses to all inquiries, never leaving you to wonder if a message was received. In addition to dollar savings, we will save your company hours in productivity.

Our Solution

- ▼ TDS Inc works as an extension of your company.
- ▼ We serve as your single point of contact, handling all your wireless needs.
- ▼ Our goal is to cultivate a long term partnership to lower your wireless costs and increase employee production.

“We partner with our clients to ensure long-term savings and efficiency.”
